Something to Think About

When nature smiles and the buds in the spring-time commence to burst and the air is laden with pleasant fragrance and perfume of sweet flowers with all the tints and shades ethereal. It is then we feel well repaid for the little expense and time we took to plant the trees, shrubs and flowers.

Everything that grows has some beauty and usefulness and how different is mother nature from some of our human nature as all plants give so much and ask so little. If we can just think of these as living organisms which breathes, takes nourishment and needs water, we would not be so neglectful at times of their well being. A little mulching, hoeing and watering brightens their lives so much and they respond with such cheerfullness by growing faster, blossoming more profusely and yielding fruit more bountifully.

So often one does not think in planting a tree, shrub or flower as to the best location so whenever you do plant think what success a kernel of corn or other seed would have in the same place. A garden to be successful will be a failure unless plowed or spaded and hoed and watered. Nursery products are even more sensitive and until a tree becomes established and the roots have a firm hold and a chance to reach out, give them tender care and you will be more than repaid for your time and thoughtfulness.

There is nothing quite so sad and lonesome as a place which has no trees, shrubs or flowers and especially where little children are. What a bare existence and with what pangs of sorrow and regret will they have of the home where they are denied the things that make for happiness and when with such a small outlay of money and time it could be so easily given. Why, everyone's pleasant dreams and longings are connected with nature's beauties—the shady nooks, the beautiful flowers and tasty fruits, so when you dream or have this longing make a resolve to help make a dream place for those that follow.

One can erect a monument in the shape of a mansion, a large barn or other building but these will leave but passing impressions to what trees, shrubs and flowers leave. He who plants these things lives to see a better day.

J. B. TAYLOR

Gone To Seed

Not in a literal sense, but really a start for better things to come.

We hope to handle a full line of every kind of seed soon but we felt we had to creep before we walked and have added to our farm seed department the better varieties of vegetable and flower seeds, so if you want fresh virile stock you will make no mistake buying from us. We have selected the best varieties that have made good in the northwest and that have stood the acid test.

A lot of varieties of vegetables and flowers look very tempting on the highly colored pages of the average seed catalogue but expectation and realization are a long ways apart and we guess nearly everyone has had the same experience we have in ordering seeds with extravagant write-ups and descriptions only to meet with disappointment. This will be avoided in this catalogue and you can rest assured that the descriptions will fit the varieties.

A seedsman once told us the average person planted too thick anyway and a little poor seed mixed with the new stock was a good thing. In other words you were paying out something for nothing.

WE HAVE NO CARRYOVER OF OLD SEEDS AND NO OLD SEEDS TO PAWN OFF OR BE MIXED WITH STOCK BUT FRESH STOCK ALL AROUND.

In selecting these good varieties some come a little higher in price than the average common sorts but they will give so much better satisfaction and like good goods will prove the cheapest in the long run. Our idea is not to sell cheap seeds but good seeds.

It is not how cheap but how good that counts.

A LITTLE ADVISE

Now in planting a garden several things are necessary for a success. First Good Seeds, then good soil and the right preparation and moisture and the logical or right time to plant. Outside of garden peas, sweet peas, onions and possibly a few other varieties, it does not pay to plant too early in the spring. The best gardeners in this locality plant their main crops about May 10th, to May 20th, as so many times the earlier plantings are frosted and stunted or killed altogether and if the seeds can be planted so that they will grow from the word go, better vegetables and flowers will be raised.

Seeds that will not stand inspection are not good buys. If you are not satisfied with the shipment you receive from us, return it and get your money back. Quite different from what you find in the average highly dressed up catalogue.

GARDEN SEEDS

We have selected the cream of all varieties and though some are a little higher in price than the average common sorts they will be much more satisfactory and will prove the cheapest in the long run.

We are not selling cheap seeds and putting down the prices by mixing in old carry over seeds. We are offering only the best varieties of the new crop. We could fill out our packets with sawdust to make bulk and compete with low priced offerings, but we are determined to start right and then keep ahead. We have grown by not misrepresenting.

Ask any experienced gardner and he will O. K. our selections of varieties as the best. We prepay postage on all garden seeds.

BEANS

FRENCH'S DWARF HORTICULTURAL—Produces an abundant crop of long pods which are spashed with crimson. The plants make healthy, strong growth. It is stringless and used when green for snapping and is extra fine to cook when d.y. Pkt., 5 cts. Lb., 45 cts.

IMPROVED RUST-PROOF GOLDEN WAX—The pods average five inches long, are stringless, quite fleshy, straight, broad, flat and of a rich golden yellow color. The vines grow erect and bear the pods well off the ground. Pkt., 5 cts., 1 Lb., 40c

KENTUCKY WONDER, OR OLD HOMESTEAD—Probably the most popular, green-podded climbing or corn-hill bean grown. Very early and productive, pods will grow to eight and nine inches long; are very slender, curved and of tender quality. Pkt. 5 cts.; 1 Lb. 45c

GREAT NORTHERN—The most Delicious Baking Bean in the World. It is a wonderful yielder and one of the most profitable sorts that can be raised. Grown to the exclusion of all other varieties of field beans in many places. Pkt., 5c; $\frac{1}{2}$ lb., 20c 1 lb., 30c. Express or freight, 10 lbs. \$1.50.

BEETS

DETROIT DARK RED—One of the very best sorts for home or market garden and for canning or pickling. Roots uniformly smooth, medium size and beautifully globe-shaped; skin and flesh dark red, tender and sweet. Pkt., 10c; oz. 20c.

CROSBY'S EGYPTIAN—This is more globular in shape than the Extra Early Egyptian and one of the best known and most popular varieties. It is very early and of fine quality. Bright red with clear vermillion flesh. Pkt. 10c; oz. 20c.

Swiss Chard

SWISS CHARD—The plants grow to a height of two to two and one-half feet with stalks heavily ribbed and from ten to twelve inches long below the leaf; are delicious when cooked and served in

Swiss Chard (Con't)

the same manner as asparagus. The leaves are large, heavily crumpled, crisply tender and of fine flavor. The leafy portion of the foliage is cooked and served in the same manner as spinach. Pkt. 10 cts., oz. 20c

CABBAGE

EARLY JERSEY WAKEFIELD—Heads are conical, very hard and solid and of excellent quality. Most gardeners depend upon it for the bulk of their extra early crop and its hardiness to resist cold. Pkt. 10c., oz. 30c.

COPENHAGEN MARKET—Has a short stem and the outer leaves shade the ground so the soil does not dry out as readily. It makes a fast growth and matures early. Has a round head with fine veins and small core, averaging about ten pounds in weight. Can be planted closely together and will yield a greater crop per acre than any other cabbage. Pkt. 10c., oz. 40c.

DANISH BALL HEAD—Leading late variety, especially on medium to light soils. Heads are round and fine keepers. The strong growth of this variety enables it to withstand dry weather well and its good keeping quality makes it a most valuable Cabbage for winter storing. Pkt., 10 cts. oz., 35c.

For Cabbage worms spray or dust the heads with Paris green or arsenic of lead. As the cabbage grows from the inside there is no danger of poison. See Cabbage plants under "Vegetable Plants."

CARROTS

CHANTEUR—Uniform and intermediate in size and shape. The flesh is of a deep golden orange color. For table use one of the best. Pkt. 10 cts. Oz. 20c.

GUERANDE OR OXHEART—Tops are small for the size of the roots, which are comparatively short. Flesh bright orange, fine grained and sweet. This variety is especially desirable for soil so hard and stiff that longer rooted sorts would not thrive in it. When young roots are excellent for table use and when mature are equally good for feeding stock. Pkt. 10c., oz. 20c.

CELERY

WHITE PLUME—This is an early and an easily blanched celery. Plants grow rapidly and when maturing the inner stems and leaves turn white and they blanch naturally, but in order to produce close, attractive bunches, the stalks should, when three-quarters grown, be drawn together and the soil pressed around the plants, which will then in a short time be fit for use. See Celery under "Vegetable Plants. Pkt. 10c.

SWEET CORN

GOLDEN BANTAM—The finest sweet corn in cultivation and the most popular. It is sweet and tender and a heavy producer and the ears remain edible for an unusually long time. This strain we grew and developed and can highly recommend it for earliness. Pkt. 5 cts.; $\frac{1}{2}$ lb. 15c; 1 lb. 25c.

BANTAM EVERGREEN—Bantam Evergreen is a cross between Golden Bantam and Stowell's Evergreen. It inherited all the good qualities of both parents and is as sweet as Golden Bantam, the same beautiful color, but in addition has an ear nearly as large as Stowell's. The kernels are deep grained, plump, a beautiful cream color at the eating stage. Pkt. 5 cts., $\frac{1}{2}$ lb. 20c.

CUCUMBERS

DAVIS PERFECT—Without question the handsomest cucumber grown for outdoor culture. The fruits grow long and slim, sometimes measuring 12 inches in length; the color is a rich, dark, glossy green, which they hold until nearly ripe. It is very tender, brittle and of fine flavor. (See photo on back cover.) Pkt. 10 cts.; oz., 20 cts.

PEERLESS WHITE SPINE—One of the earliest and most productive of the famous white spine group. Fruit is rounded at both ends, and of bright deep green color. Very popular as a market variety on account of its good keeping qualities and its uniformity of size and shape. Pkt., 10c; oz., 20c.

LETTUCE

GRAND RAPIDS FORCING—It matures quickly and is of a large size, handsome appearance; crisp and tender. The leaves are bright green and crimped at the edge. It is one of the best varieties for garnishing and general use. Pkt., 10 cts.; oz., 30 cts.

BLACK-SEEDED SIMPSON—One of the best and most largely planted bunching varieties. Very satisfactory as it is very reliable and easily grown; it succeeds during summer when more delicate sorts are failures. A good shipper, remaining a long time in condition for use. Leaves broad and of fine quality, sweet and tender. Pkt. 10 c; oz. 25c.

TENNIS BALL—One of the very best head lettuces succeeds everywhere and at all seasons. It is a sure header and an excellent shipper. We can recommend it for both private and market gardener's use. The plants are medium size with broad crumpled leaves of light green color and the quality is excellent. Pkt. 10c; oz. 25c.

MUSK MELON

EMERALD GEM—A very popular variety with both home and market gardeners. The stem is a dark emerald green, with lighter stripes. Flesh very thick, of a dark salmon color. This variety is considered by many to be very best of all musk melons. Pkt. 5 c's., $\frac{1}{4}$ lb. 45c.

HEARTS OF GOLD—A mid-season variety of exceptional merit. The fruits are of uniform shape. They are distinctly ribbed and covered with an attractive fine gray netting. The flesh is a beautiful salmon shade. It is very thick, ripens close to the rind and of delicious flavor. Pkt. 10c; $\frac{1}{4}$ lb. 50c.

JENNY LIND—An old favorite unusually early, small green fleshed; the fruit is round, flattened at ends, ribbed and netted. And the flesh is very attractive in flavor and quality. Pkt. 5c; $\frac{1}{4}$ lb. 45c

ROCKY FORD—It is of the netted gem type. Oval in shape, averaging from four and one-half to five inches in length, of a rich flavor and very fine and smooth grain. Flesh is of a light green color throughout when ripe and very popular. Pkt. 10c; $\frac{1}{4}$ lb. 35c.

WATER MELON

KLECKLEY'S SWEET—A large oblong melon, 20 inches in length with dark green rind, which is only about $\frac{1}{2}$ inch thick. The scarlet flesh is sweet and sugary and is of such texture that it leaves no strings of pulp whatever in eating. Is better for home use than for shipping and we believe it is the best table melon grown. Pkt. 5c, $\frac{1}{4}$ lb. 30c.

WATERMELON (Con't.)

TOM WATSON—Fruits of this variety sometimes reach a size of 24 inches in diameter. The rind is dark mottled green, thin, but tough enough to endure shipping to very distant markets. The flesh is deep red and comes very close, about three-fourths of an inch, to the rind. For the home or market garden, or for shipping, it is very popular. Pkt. 5c; $\frac{1}{4}$ lb. 30c.

ONION

LARGE RED WETHERSFIELD—This is the old standard variety. Makes a large sized flat onion and the flesh is a purplish white, moderately fine grained and strongly flavored. For markets demanding a red onion this is the variety to grow, as it matures early and is productive. Pkt. 10 cts. $\frac{1}{4}$ lb. 75c.

SOUTHPORT WHITE GLOBE—Commands the highest market price; good shape, clear, white skin. The flesh is pure white, juicy and sweet with a delightful mild flavor. Pkts. 10 cts.; $\frac{1}{4}$ lb. 85c.

PRIZE TAKER—Grows to be a very large onion, it is hardy, productive and a fair keeper. Outside skin is rich yellow, flesh is white, sweet and tender. They bottom well and are free from stiff-necks. Pkts. 10 cts., $\frac{1}{4}$ lb. 80c.

PARSLEY

CHAMPION MOSS CURLED—A compact-growing densely curled variety of a dark green color, very popular for garnishing. Pkts., 5c.

PARSNIPS

LONG SMOOTH OR HOLLOW CROWN—A great cropper, tender, sugary and considered one of the best for general cultivation. Roots are well developed and average about 12 inches long. Pkt., 5c; $\frac{1}{4}$ lb. 25c.

RADISH

CRIMSON GIANT—Suitable both for forcing or early planting out of doors. In shape it is round-oval and very attractive. The flesh is mild and tender. Grows to larger size than any in this class, yet retains its crispness and delightful flavor. Pkt., 10 cts.; $\frac{1}{4}$ lb., 45 cts.

FRENCH BREAKFAST—Ready for use within 25 days after sowing seeds. Oblong shape, mild and tender. The skin is pink in color on the upper portion, lower part is pure white. Pkts. 5 cts.; $\frac{1}{4}$ lb., 35c.

SPARKLER—This radish is very popular on account of its beautiful color, its quick growth and fine table qualities. The color is bright scarlet with a large white tip, covering fully one-third of the roots. This variety has small tops and is edible even when it gets large. Pkt. 5c; $\frac{1}{4}$ lb. 40c.

ICICLE—This variety has short leaves and makes its growth quickly. Attains its best quality at about four inches long and is of transparent whiteness. It is of most excellent flavor and remains crisp long after most sorts would be discarded as too big and tough. Pkt. 5c; $\frac{1}{4}$ lb. 35c.

WHITE CHINESE OR CELESTIAL—Splendid for late fall and early winter use. Roots globeshaped extra large and even when fully developed (growing sometimes to 6 inches in diameter) the Radishes are solid, crisp and of a mild flavor. Skin and flesh pure white. Pkt., 10 cts; $\frac{1}{4}$ lb. 50 cts.

VEGETABLE OYSTER

MAMMOTH SANDWICH ISLAND—The largest, smoothest and the very best in every way of all salisfy. Pure white, very tender and of excellent quality. Pkt. 10c.

SPINACH

LARGE LEAVED VIROFLAY—Hardy and early with large tender fleshy leaves. The leaves are attractively curled and remain in prime condition for a long time. Pkt. 5c.

SQUASH

MAMMOTHWHITE BUSH—A very early summer squash. It is flattened and scalloped, comparatively smooth on the surface and creamy white in color. The flesh is thick and very fine in quality. Pkt., 5c. $\frac{1}{4}$ lb. 35c.

GIANT SUMMER CROOKNECK—An improved variety as early as the common Crookneck and much larger, sometimes attaining a length of two feet. It is heavily warted and of bright golden color. The plants are bushy and very prolific. The squashes are brittle and tender. Pkt. 5c $\frac{1}{4}$ lb., 45c.

IMPROVED HUBBARD—The standard winter squash more extensively grown for the market than any other variety. The fruits are large, heavy and moderately warted. The shell is a dark bronze-green with bright yellow flesh this is fine-grained, dry and sweet. Its quality is the standard of excellence. Pkt., 5c; $\frac{1}{4}$ lb., 40c.

TABLE QUEEN OR DES MOINES—A small, very productive variety of many desirable qualities. Its size is particularly desirable as one squash makes a meal for a person. The thin shell is ribbed and a very dark green in color. The rich golden flesh is very thick and the seed cavity small. A good keeper, the quality is excellent. Pkt., 10c, $\frac{1}{4}$ lb., 50c.

PEAS

Peas can be sown as early as the ground can be worked. Plant 2 to 3 inches deep. All these varieties we are offering are early maturing and rather dwarfish and do not necessarily need a trellis or support to grow upon.

ALASKA—An extra early hardy pea. Pods of perfect shape, well filled with smooth peas of unrivalled quality. Height 2 $\frac{1}{2}$ feet. Pkt. 5 cts., $\frac{1}{2}$ lb. 20 cts. 1 lb. 35 cts.

LAXTONIAN PEA—The ideal variety for the small home garden where space is at a premium. Laxtonian grows but 18 inches high, but the vines are exceedingly vigorous and produces the largest pods of any extra early sort. Pods average 4 inches long and are uniformly well filled with 8 deep green, large peas, of delightful flavor. Since it is quite hardy it may be planted about the same time as the hardy smooth-seeded varieties. Pkt. 5 cts. $\frac{1}{2}$ lb. 25c; 1 lb. 45c.

LITTLE MARVEL—We consider this the sweetest of all early wrinkled peas, and it bears heavy crops of 3 inch long deep green pods mostly borne in pairs. Every one of these pods, however, contains 8 of the largest, deepest green peas you ever saw, so large in fact that you wonder how they ever fitted into the small pod to begin with. The vines grow about 18 inches in height. Pkt. 5 cts. $\frac{1}{2}$ lb. 25c; 1 lb. 45c.

PEAS (Con't.)

SUTTON'S PIONEER—The plants are dwarf, growing about 14 inches high, sturdy and exceedingly productive and the quality is very fine indeed. The color of the peas is a light green and it bears the largest pods of any of the low-growing wrinkled Peas. Pkt., 5 cts.; $\frac{1}{2}$ lb. 25c.; 1 lb. 45 cts.

PEPPERS

CULTURE—Sow the seed in hotbed or boxes in the house and when all danger of frost is past, transplant in the open ground. Seeds are slow to germinate. See Pepper Plants under Vegetable Plants.

HARRIS' EARLIEST—We have grown this variety for years and find it the finest pepper we ever raised. The plants are dwarf and compact, with fruits, averaging $3\frac{1}{2}$ inches in length by 2 and one half inches through. The flesh is thick and mild and sweet and the earliest of all peppers. Pkt., 10c.

PUMPKINS

SUGAR—A handsome and prolific variety of small size; the skin is a deep orange yellow. It is fine grained in flesh, sweet in taste and an excellent keeper. Pkt. 10 cts., $\frac{1}{4}$ lb. 35 cts.

JAPANESE PIE—Skin deep green with dark stripes; seeds are marked with curious indentations; of the finest quality; good keeper. Pkt. 10c; $\frac{1}{4}$ lb. 40c.

LARGE CHEESE OR KENTUCKY FIELD—Large round, flattened fruits, much ribbed and creamy buff in color; flesh yellow and very deep; of fine quality and one of the best canning sorts. Pkt. 5c; $\frac{1}{4}$ lb. 30c.

CONNECTICUT FIELD—An immensely productive, large orange colored field pumpkin, usually grown for stock feeding, but also making good pies. Pkt. 5c $\frac{1}{4}$ lb. 30c.

TOMATOES

Tomatoes succeed best in fairly rich soil. For early plants sow seed in boxes or hotbeds in March. Set out of doors as soon as danger of frost is over. Transplant four feet apart each way and cultivated as long as vines will permit. See Tomato plants under "Vegetable Plants."

JOHN BAER—A splendid early tomato which is an improvement of the Earliana, producing beautiful, large, bright red, solid fruit early in the season. Is an excellent solid shipping tomato which ripens early right up to the stem and is an enormous cropper and when dead ripe will not burst. It has a mild, deliciously sweet flavor. Almost seedless and an enormous stem setter. It is solid and meaty and has just enough foliage. Will stand plenty of manuring without going to vine. We have grown this variety for years and consider it one of the very best tomatoes. Pkt. 10c, oz. 35c.

LIVINGSTON'S GLOBE—Large globe shape, always smooth, firm fleshed. With few seeds and ripens evenly. The color is light red, tinged with purple. Matures medium early and is a great favorite. Pkt. 10 cts.

YELLOW PEAR—Fruits a clear, handsome yellow. Very sweet and free from acid. Fine for salads or marmalade. Pkt. 10 cts.

TURNIPS

EARLY WHITE FLAT DUTCH—An excellent extra early, flat turnip. Strap leaved, mild flavor, fine quality. To be at their best should be used when small as they are more tender. Also grown for a fall crop. 1 kt. 5 cts., $\frac{1}{4}$ lb. 30 cts.

PURPLE TOP WHITE GLOBE—One of the standbys and is mild and of good quality. Perfect globe shape and more generally planted than any other variety. We highly recommend it. Pkt. 5c; $\frac{1}{4}$ lb. 25c.

RUTABAGAS

IMPROVED AMERICAN PURPLE TOP—This is very uniform shape and fine quality, and is a splendid keeper. The roots grow to a large size, have small tops, short necks and smooth skin; flesh is beautiful yellow, fine grained, very sweet, tender and of excellent flavor. Pkt. 5c, $\frac{1}{4}$ lb. 25c.

ONION SETS

YELLOW AND RED BOTTOM SETS—Fine, well cured and well grown sets, either sort. Pt., 20c; qt. 30c, $\frac{1}{2}$ Peck, 85c; postpaid.

TOP OR WINTER ONION SETS—Perennial. Live in the ground all winter and start very early in the spring. Pt., 25c; qt., 40c postpaid.

DILL—The seeds are used for pickling cucumbers. Pkt., 5c.

Vegetable Plants

CABBAGE—COPENHAGEN MARKET—Extra fine for early and mid-season.

DANISH BALL HEAD—Late and best winter keeper.

Price all cabbage per dozen, 25c; Per 100, \$1.25.

TOMATO—JOHN BAER—An improvement of Eariana, early and the best all around tomato grown, very prolific. See picture on cover.

Per doz. 35c; Per 100, \$2.25.

CELERY—WHITE PLUME—Per doz., 25c;

Per 100 ----- \$1.25

PEPPER—Sweet Early Red. Per doz., 50c;

Per 50 ----- \$1.50

“The 200 Cottonwood trees you sent are an exceptionally fine bunch and I am very well satisfied with the same.”

Flower Plants

ASTERS—Fine for late summer and early fall blossoms. Mixed, per dozen ----- .35c

PANSY—Thrive best in a protected partial shady place. Mixed per dozen ----- .75c

GERANIUMS—Mrs. Nutt, finest of the reds E ch ----- 25c; Per 10, \$2.00

PETUNIAS—No flower any showier blossoms so cheerfully all summer. Per doz. ----- .50c

CANNA KING HUMBERT—Orange scarlet flowers, immense bronz leaves. Each 15c. Per dozen ----- \$1.50

“Received the plants in fine shape, all are growing and blossoming which we think is very good. We will be down to order more another year.”

“Trees came in fine shape. They are nice and thrifty and we are well pleased with them.”

FLOWER SEEDS

We are offering you a line of flowers that do well nearly everywhere in the northwest. All our seeds are new and fresh. We have no old seeds to mix in with fresh stock and you are buying the best that is raised. We could offer cheaper seeds, but there is nothing too good for the people of the northwest.

So that the seeds will germinate readily and the plants grow and flower to perfection attention should be paid to the soil condition and especially if small seeds are sown. The ground should be worked up well and if the soil is heavy lightened up with well rotted manure or sandy loam. If this is not done the soil is apt to become hardened or baked before the tender plants get large enough to take care of themselves. Small seeds must not be planted deep and most flower seeds germinate better if planted near the surface. Sweet peas, sunflowers, beans and some of the larger seeds can be planted fairly deep.

We prepay postage on all flower seeds.

SNAP DRAGONS

Snap dragons are one of the most popular bedding plants: the richness and diversity of colors, their long blooming season giving them great value for garden color masses, as well as for cutting. They have dark and glossy leaves; and curiously pea-shaped flowers with marked throats, set densely in long, upright stems. They bloom in July from seed sown outdoors in early May, but for earlier bloom, seed should be started indoors during March. Does best in dry loamy soil. Pkt. 10c; $\frac{1}{4}$ oz. 30c.

ASTERS

Asters are a most valuable type for bedding as well as cutting, as they are the first to come into bloom. Plants grow quite tall and they branch freely near the ground, giving long stems to the flowers. The blooms are well rounded and double. They are of medium size and come in many colors. The Queen of the Market Asters are very popular for bouquets. Pkt. 10c; $\frac{1}{4}$ oz. 40c.

CALENDUALS

One of the dependable hardy annuals that have a wonderful profusion of flowers, ranging from ivory to orange. Valuable for bed and borders. Bloom until late fall and are well adapted for outdoor culture. Pkt. 10c.

COSMOS

Beautiful summer and autumn blooming plants. They produce such a quantity of artistic flowers in pure white, pink and crimson shades, furnishing an abundance of cut blooms for autumn decorations when other flowers are scarce. Should be sown in Spring in the open ground, when danger of frost is past, or the seed may be

COSMOS (Con't.)

started under cover and afterwards transplanted. Plant not less than 18 inches apart in rows or in masses in beds. When the plants are about a foot high the tops should be pinched out to induce a bushy growth. They prefer a rather light, not too rich soil, but do well almost anywhere. The mixture we have is fine. Pkt. 10c; $\frac{1}{4}$ oz. 25c.

GAILLARDIA

(Blanket Flower.) Splendid showy annua's, remarkable for the profusion and brilliancy of their flowers, continuing in bloom from early summer till November; extra fine for beds, borders, or for cutting; should be sown where they are to bloom; 1 $\frac{1}{2}$ feet. Pkt. 10c oz. 35c.

HOLLYHOCK

Double. One of the most majestic of hardy plants and a clump or line of our double varieties in any garden gives an effect not attainable with any other plant. For planting among shrubbery or forming a background for other flowers, it is without equal. This is a biennial and blossoms the second year. Sow some each year and enjoy these fine double varieties. Pkt. 10c; $\frac{1}{4}$ oz. 35c.

LARKSPUR

Or Delphinium. The Annual Larkspur furnishes one of the best and most satisfactory blossoms in the whole range of annuals. Colors are so soft and satisfactory and make such attractive bouquets. Our mixture is sure to please. Pkt. 10c; $\frac{1}{4}$ oz. 25c.

MARIGOLD

The Marigolds never fail to attract attention and are so easily raised and adapt themselves so readily. Really an optimist among the flowers that radiates cheer. Our mixture is fine when assembled with the blue of Larkspur or the paler tints of Cornflower, the contrast is so pleasing. Pkt. 10c; $\frac{1}{4}$ oz. 25c.

NASTURTIUMS

The Tom Thumb or Dwarf bedding nasturtiums are probably the very best varieties grown. They are easy to grow and the brilliant blossoms are lasting. Plant in a moderately good soil in a sunny location, until cut down by frost they will bear a profusion of gorgeous blossoms. Pkt. 10c, Per oz. 15c.

POPPIES

Double Peony shaped Poppies are so easily grown that they should be in every garden. The plants grow quickly and produce a wealth of gorgeous blossoms. Sow the seed thinly early in the spring where the plants are to bloom. The seeds should be barely covered from view. The flowers are excellent for vases because if picked when the buds are just beginning to open they will last a remarkably long time as cut-flowers. Pkt. 10c; $\frac{1}{4}$ oz. 25c.

SHIRLEY POPPIES

This type is perhaps the most beautiful of all Poppies; one sowing keeping the bed alight all summer. Mostly come single or semi-double. The colors range from white, thru various shades of pink, to scarlet and deepest crimson Mixed. Pkt. 10c; $\frac{1}{4}$ oz 30c.

PANSIES

The latter part of April is the best time for spring sowing, under normal conditions, producing flowers by the last of June and continuously until fall. A well enriched, finely worked soil is best. Seed should be covered not over four times its own depth and takes about 10 days to germinate. When the plants are sufficiently developed, transfer to desired location. Pansies will do well in partial shade, but will make more blossoms if in full sunlight, but in partial shade the blossoms are larger and will not fade as readily. Many people start them in hot-beds or in boxes in the house, about two weeks before the probable earliest planting time. Pkt. 10c; $\frac{1}{4}$ oz. 40c.

PETUNIAS

For outdoor decoration, porch or window boxes few plants equal the Petunia in effectiveness. They commence flowering early and continue a sheet of bloom throughout the whole season until killed by frost; easily cultivated but likes good soil and sunny positions. It is best to sow them indoors and transplant to the open in late May. The Single Bedding kinds can be sown out of doors in May. Our mixture is an extra fine one. Pkt. 10c; $\frac{1}{4}$ oz. 35c.

SALPIGLOSSIS

Painted Tongue. These are one of the finest annuals, and are easy to grow in good ordinary soil and in a sunny position. The plants grow about 24 inches high and produce freely from mid-summer until frost. The most attractive and stunning blossoms in a very large and unusual range of colors. They are splendid for cutting, last well. Seed may be started indoors or in a hotbed about the end of March, or sown outdoors when danger from frost is passed and the ground is in good condition. For best results the plants should not be set closer than 12 inches apart. Pkt. 10c; $\frac{1}{4}$ oz. 40c.

STRAWFLOWERS

Strawflowers are easy to grow and do well in nearly any location. They do best if planted where they get sunlight all day long. A moderately moist soil which is fairly rich produces the finest plants and largest flowers.

Sow the seed outdoors and cover with $\frac{1}{4}$ inch of soil. The seeds will germinate in about 2 weeks after planting and when the young plants are about 2 inches high it is best to thin them out so they will be about 10 inches apart. The plants make a strong upright growth and bloom profusely during late summer and fall.

Strawflowers are in great demand not only for the fine effect they give in beds and borders, and as cutflowers, but also because they can be dried for winter bouquets. Cut the flowers early in the morning while the dew is still on them and hang them heads down in a cool, shady and airy place until thoroughly dry. Pkt. 10c; $\frac{1}{4}$ oz. 25c.

SUNFLOWERS

The annual Sunflowers are indispensable for cutting. Sown on a sunny spot about May first they come into bloom early in summer and keep up a constant supply of flowers until cut down by frost. Pkt. 10c.

"Were so pleased with the trees as they were just the size I wanted and they seemed in good condition."

HYACINTH BEAN

A rapid growing annual climber, climbing to about eight feet. They bloom freely in large, upright racemes of pea-like flowers, either white or purple; followed by ornamental purple seed pods. Sow about May 15th or after danger frost. Mixed. Pkt. 10c; $\frac{1}{2}$ oz. 15c.

SWEET PEAS

The whole world loves the sweet Pea and especially the exquisite new Spencers. We are offering the far famed Silver Gilt Medal varieties which mixture is a beautiful blend of only the largest and brightest colored Spencers. It includes all the standard kinds of merit and all the latest creations. It is our personal experience to plant

the Spencers as one gets such finer and larger blossoms. Sweet peas shou'd be picked often for continuous bloom. Plant seeds as early as the ground can be worked. A good way is to make a trench 3 inches deep and plant seeds one inch deeper in the trench and gradually fill in the trench as the season advances. Water or irrigate and pick blossoms regular'y and you will enjoy bouquets until hard frosts come. Pkt. 10c; oz. 50c.

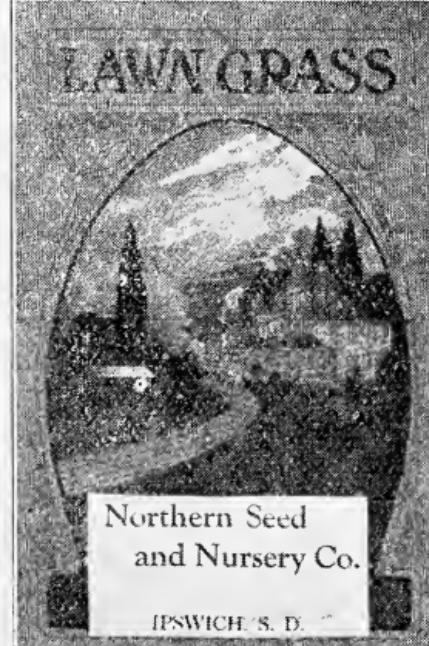

ZINNIA

There are few flowers that are more popular than the large flowering double Zinnias and no flower is as showy during the late summer and early fall. Easy ci cu ture as the seed can be sown where the p ants are wanted and they will continue blossoming long after light frosts. No flower stands the hot sunny condition any better.

Ipswich is noted for its Zinnias and the Zinnia beds have attracted a great deal of attention the p sc few years. Fine for massing.

Price for our Giant Grandiflora flowered mixture, 10c pkt.

If your order comes to \$1.00 for garden and flower packets. You can select 25c more and get \$1.25 value for \$1.00 prepaid.

Blue Grass

Our lawn grass is pure Kentucky Blue Grass. No mixture of old seed or substitutes. It is fancy 1924 seed that weighs 21 lbs. to the bu. and is the best that can be bought.

There is just one way to get a good stand of grass and that is to sow the best fresh seed that can be purchased.

Price 1 lb. 60c; 10 lbs. 45c per lb.

FARM SEEDS

We wish we could give more space to seed corn, as it is a vital proposition to the growers of the northwest. By that we mean good seed corn, well bred up and seed that has been properly handled.

Our seed plant we aim to make the best in the northwest. Three stories and basement will give us the room to do this. On the top floor we dry and cure our seed corn. This is an ideal place as it is airy and warm in the fall when it is absolutely necessary to dry the seed before freezing weather comes.

Good seed corn is cheap at any price. Even if the seed is a gutt, a few missing hills every row makes it expensive seed. We have the finest seed we ever raised and all grown here.

During the early fall of 1923 we stored a great quantity of hand selected seed corn. That was one of the best corn years we ever had and thinking possibly that the 1924 crop would not turn out as favorable we put in an extra amount. We have kept this in perfect condition and as it all tested around 100 per cent we feel as though we can back this seed up, something we are afraid to do with the 1924 crop, with its excessive moisture content.

We cautioned everyone in our 1924 catalogue "Not to depend for their main crop on the late maturing varieties" and we still think this as we saw so many fields of Ried's Yellow dent and other of the later and larger varieties good only for fodder. The best of the 1924 crop was poor but with the good price has equalized some as many are realizing as much for their 1924 crop as they did for the 1923 one because they used northern grown and acclimated seed.

Corn grown in the north where the early maturing ears are selected for seed is the seed to tie to.

FULTON'S YELLOW DENT—This variety we have was selected for years for earliness and it is this strain that has taken most of the prizes at the corn shows for the past few years. Has a deep kernel and is a heavy yielder.

Price per bu. \$5.00; 3 or more bu. \$4.75 per bu.

MINNESOTA NO. 13—Originated by the Minnesota Agricultural College. An extra good corn for silage and a heavy yielding yellow dent. This strain has been selected for earliness and will mature much earlier than average Minn. No. 13.

Price per bu. \$5.00; 3 or more bu. \$4.50 per bu.

SOUTH DAKOTA NO. 86—This is a selection of the Minn. No. 13 by the S. D. Experiment Station. We have grown this variety for the past five years and believe it is one of the best yellow dents. Matures early and is like its parent in every way except that the ears are a trifle smaller. Price per bu. \$5.50; 3 or more bu. \$4.75 per bu.

WIS. COLD RESISTANT—A selection of the Golden Glow made by the Wis. Experiment station. This corn has been bred for hardiness as to early planting, withstands cold and wet ground conditions and can be planted much earlier than the average corn.

Price per bu. \$5.50; 3 or more bu. \$4.75 per bu.

NORTHERN YELLOW DENT—A very early maturing corn. Not as pure as the above varieties but for late season or for replanting cannot be beaten. It has never failed to mature a crop here.

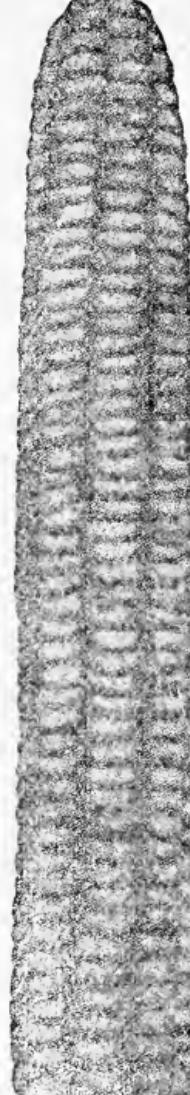

Price per bu. \$5.00; 3 or more bu. \$4.00 per bu.

NORTHERN WHITE DENT—A variety that has been grown here for years and never fails. Good for hogging off purpose. Not pure white dent but a corn that has been selected for years for earliness. If cutworms take your first planting, replant with this variety or the Nor. Yellow Dent.

Price per bu. \$4.00; 3 or more bu. \$3.50 per bu.

NORTHWESTERN DENT—An extra early red dent, planted very extensively. Matures early and is a very satisfactory and popular corn.

Price per bu. \$4.50; 5 or more bu. \$4.25 per bu.

RAINBOW FLINT—The most popular flint corn grown. Grows an extra large ear high on the stock. One of the best of the fodder corns. This strain has been grown here for many years and has matured here every year.

Price per bu. \$5.00; 3 or more bu. \$4.50 per bu.

WHITE FLINT—An early maturing large yielding white flint. Fine for hogging off.

Price per bu. \$5.00; 3 or more bu. \$4.50 per bu.

MIXED FLINT—This is a heavy yielder of large long ears. Good for fodder and like all the flints good for hogging off.

Price per bu. \$4.50 per bu.; 3 or more bu. \$4.00 per bu.

SQUAW FLINT—This is the old reliable mixed flint that has been the standby for hogging off. Ears grow close to the ground.

Price per bu. \$4.50; 3 or more bu. \$4.00 per bu.

SWEET CORN

GOLDEN BANTAM SWEET CORN—Nothing quite equals Golden Bantam for table use. Can be planted early, matures early and one of the sweetest of the sweet corns. Our own planting. See Garden Seeds.

Price per pound, 25c; 10 pounds, \$2.00; 50 pounds \$7.50.

POP CORN

WHITE RICE—Raised locally. The standard popular corn, easy to raise and a good yielder.

Price per pound 15c; 10 pounds \$1.25; 50 pounds \$4.00

JAPANESE HULLESS—The finest of the pop corns. The kernels when popped are large and clear white. Very popular.

Price 25c per pound; 10 pounds \$1.50.

Popping corn. Write for low price.

With an up to the minute cleaning plant we can clean up our seeds so you do not buy light fluffy seeds, foreign matter and weed seeds. Cheap seeds means expensive seeds generally.

"The seed corn sent was the finest I ever saw."

Prices Quoted Subject to Market Changes

WHEAT

The Northwest harvested an extra fine crop of wheat in 1924 but we hope that there will not be a larger acreage planted in 1925 as some hard wheats are rather an uncertain crop and unless Marquis and like varieties can be planted extra early it pays best to sow varieties that are not subject to rust and droughty conditions. But all varieties do better if sown rather early as a few days makes a world of difference sometimes when the crop is ripening. A 1 of our wheat is cleaned twice and is worth much more than seed cleaned once hurriedly.

KOTA WHEAT—This strain of hard wheat was originated by the N. D. Agricultural Station and is very rust resistant, drought resistant and a high yielder and the most popular wheat grown in N. Dak.

Price per bu. \$3.00; 5 or more bu., \$2.50 per bu.—

MARQUIS WHEAT—The best of the milling wheats but subject to rust. Should be sown as early as possible.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

PEARSON 999 AMBER DURUM—An improvement of the Kubanka and the best of the durums. An enormous yielder and a good rust resister. The seed we are offering we grew ourselves and it outyielded all other spring varieties.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

RUBY SPRING WHEAT—A hard spring milling wheat introduced by the Canadian Experiment Station. It is 10 days earlier than Marquis. It being earlier is not affected by rust like the other hard spring wheats.

Price per bu. \$2.75; 5 or more bu. \$2.50 per bu.

KANRED WINTER WHEAT—Write us for prices and information for fall needs.

SPELTZ

Price, \$2.75 per 100 lbs.

OATS

HULLESS OATS—A new variety that is becoming quite popular. Threshes out like wheat or rye and when ground makes one of the best concentrated food for young pigs and calves. On account of being hulled it will not yield as many bushels as other oats will, but one must take into consideration that one bu. of hulless oats will weigh what two bu. of the common oats will.

Price per bu. \$3.50; 3 or more bu. \$3.00 per bu.

SIXTY DAY OR KERSON OAT—Recommended by the experiment station for the main crop. Matures and ripens usually before the wild oats do. A good yielder and the surest variety to grow if the season happens to be a little dry.

Price per bu. 85c; 10 or more bu. 65c.

VICTORY OATS—A selection and improvement of the Swedish Select Oat. Matures early, a large plump kernel and a heavy yielder. We highly recommend this variety.

Price per bu. \$1.00; 10 or more bu., 75c per bu.

FLAX

FLAX—Grown in Edmunds county.

Price per bu., \$4.00; 5 or more bu. \$3.50 per bu.

POTATOES

EARLY OHIOS—The standard early potato.

IRISH COBBLER—White, big yielder, very popular

Price per bu., hand sorted, \$1.50 5 bu., \$1.25 per bu.

Prices Quoted Subject to Market Changes

RAPE

RAPE-DWARF ESSEX—One of the best forage plants grown, excellent for hogs and sheep. Can be sown separate or with other grains.

Price per 10. 25c; 10 lbs. \$1.75; 25 lbs. \$3.25; 50 lbs. \$6.00; 100 lbs \$11.00.

SOY BEANS

WISCONSIN BLACK—An early maturing bean and a good yielder. This seed was grown in Edmunds county and is acclimated. It will mature and be more satisfactory than the southern seed and worth much more. Plant with the corn planter, being careful to stir up the corn and beans at the end of every row. This is for hogging purpose and silage. If seed is wanted plant alone.

Price, 10 lbs., \$1.50; 25 lbs. \$2.50.

SWEET CLOVER

This is one of the easiest of the clovers to get started. It is a good yielder of seed and out yields any other clover or alfalfa for pasture purpose and we predict that it will soon be more generally grown than alfalfa.

Stock like it better when pastured close. It starts early in the spring and stays green late in the fall. Another advantage, stock will not bloat on White Blossom Sweet Clover.

Price for scarified northern grown seed per lb. 25c 10 lbs. \$1.75; 20 lbs. or more, 16c per lb.

GRUNDY COUNTY WHITE BLOSSOM SWEET CLOVER

This resembles the white blossom in every way except it is more dwarf and does not get as coarse. Fine for pasture and hay. We grew this ourselves and it is absolutely pure. Price per lb. 35c; 10 lbs. \$2.25; 50 lbs. \$2.00; 100 lbs. \$18.00

YELLOW BLOSSOM—This is a finer foliage, lower growing variety than the white blossom and makes better hay. It may be cut close to the ground while the white cannot. 1 lb., 25c, 10 lbs. 18c; 20 lbs. or more 16c per lb.

RED CLOVER

RED CLOVER—Very valuable for forage and for plowing under for fertilizing purposes cannot be equalled.

Price, 1 lb. 50c; 25 lbs., 45c per lb.; 50 lbs. 40c

WHITE DUTCH CLOVER

Fine to mix with Kentucky Blue Grass for lawn. Makes good pasture and bee food.

Price per lb. 75c; 5 lbs. 65c per lb.; 10 lbs. 65c

ALFALFA

DAKOTA GROWN—This is acclimated northern and northwestern South Dakota grown seed from old fields that have stood the severe winters and dry summers and is the variety that is generally more planted than any other. Known as Dakota No. 12.

Price per lb., 40c; 10 lbs., 35c; 20 lbs. 30c per lb.; 50 lbs. 27c per lb.

GRIMM ALFALFA—Grown in northern South Dakota. The hardiest of all alfalfas. We are pricing this at a low figure this year and anyone figuring on a permanent alfalfa field should take advantage of this price and make a good planting.

Price per lb. 65c; 10 lbs., \$6.00; 25 lbs., 50c per lb., 100 lbs. 45c per lb.

COSSACK ALFALFA—This is a hardy variety brought from Siberia by Professor Hansen. It is a good yielder and very cold and drought resistant. Lb. 75c; 10 lbs., \$6.00; 100 lbs. \$50.00.

BROMUS

BROMUS INERMIS—One of the very best pasture grasses grown, will stand more droughty conditions than any other grass, an enormous yielder. Starts very early in the spring and will keep green, if pastured, the last in the fall.
Price, 5 lbs., 75c; 10 lbs. \$1.25; 50 lbs. \$5.00.

SUDAN GRASS

This is one of the best forage plants grown. Can be grown to advantage on clean or new ground by sowing it broadcast or drilling it in and can be cut several times during the summer. It takes about four pounds to plant an acre if planted in three-foot rows and we would be inclined to recommend planting it this way.

Price per lb. 25c; 5 lbs. \$1.00; 10 lbs. \$1.75 per lb.; 20 lbs. \$3.00; 50 lbs. \$5.50; 100 lbs. \$10.00.

TIMOTHY

Grown in the northern part of this state and acclimated. We are making a special price as we would like to see more and better grass lands.

Price, 10 lbs. \$1.25 20 lbs. \$2.00; 50 lbs. \$5.00; 100 lbs. \$9.00.

MILLET

BROOM CORN—The standard millet grown for seed production. Very high feeding value for hogs, cattle and poultry. A good drought resister.
Price 1 lb. 20c; 10 lbs. 75c; 50 lbs. \$2.00; 100 lbs. \$3.50.

EARLY FORTUNE—Quite similar to Broom Corn millet except that the seed is red. One of the best of the millet family. Seed excellent for stock and poultry and the fodder after threshing is the best of feed. For hay purposes much better than Broom Corn millet as it does not grow as coarse.

Price per lb. 20c, 10 lbs. 75c, 50 lbs. \$2.25, 100 lbs. \$3.50; 200 lbs. \$6.50.

GERMAN MILLET—One of the very best for hay purposes. Price 10 lbs., \$1.00, 50 lbs. \$3.25

JAPANESE—Sometimes called billion dollar grass. Makes a heavy growth and in moist seasons will cut two or more crops. Is better for horses than the other millets.

Price, 1 lb. 25c; 10 lbs. \$1.25; 50 lbs. \$3.00; 100 lbs. \$5.50.

SIBERIAN—The most popular millet for hay purpose. A good drought resister. Not only makes splendid hay but is a reliable seeder.

Price, 1 lb. 25c; 50 lbs. \$2.50; 100 lbs. \$3.75.

CANE SEED

No crop grown makes the feed that cane does and should be more generally grown. A great drought resister. Can be planted late. Drilled with corn planter and cultivated is best.
Price 10 lbs., 75c; 25 lbs., \$1.75; 50 lbs., \$3.00; 100 lbs., \$5.00

MINNESOTA AMBER CANE for making sorgum or syrup.
Price per lb., 25c; 10 lbs., 100; 25 lbs., \$2.00

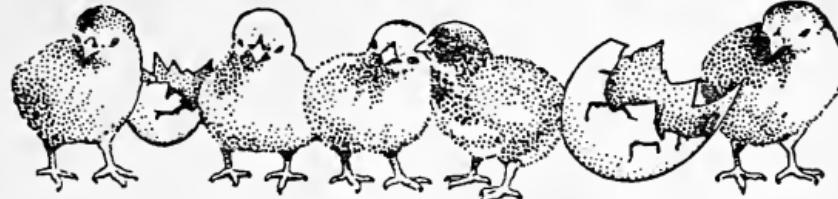

Prices Quoted Subject to Market Changes

BUCKWHEAT

BUCKWHEAT—Silver hulled, an improvement of the old sort. A great yielder. One of the best crops to grow to smother out weeds. Also fine for bees when in blossom. One of the very best of poultry feeds that is grown.

Price per bu. \$2.50; 5 or more bu. \$2.25 per bu.

POULTRY DEPARTMENT

QUEEN INCUBATORS—180 egg size, Each \$40.00

QUEEN BROODER—1200 chick size and one of the very best brooders on the market with automatic heat control. Each \$25.00.

BABY CHICKS—Barred Rocks.

BARRED ROCK EGGS—The old standbys. Ours are the large growthy kind. This is the only variety we have. Cockerels for sale after September 1.

Eggs, \$1.50 for setting; \$3.00 for 50.

CHICK FEED—This our own balanced mixture of mixed grains and cracked corn and is sold very reasonable. Price \$2.25 for 50 lbs.; \$4.00, 1.00 lbs

CHARCOAL—Mixed with poultry mash will keep the chicken's digestive organs in good condition. Price 10 lbs, \$1.00; 50 lbs. \$3.50.

EGG MASH—A scientific mixture recommended by the leading poultry raisers. 50 lb. bags \$2.25; 100 lb. bags \$4.00.

BRAN & SHORTS from a small mill, as they cannot separate as close as the large mills it contains much more feed value. Sold in 100 lbs. bags.

Cracked, Ground and Whole Corn at market prices.

SUNFLOWER SEED—Mammoth Russian, extra large headed. A fine feed and conditioner for poultry. Nothing equals it for fitting poultry for show purposes. Also fine for silage.

Price per lb. 20c; 10 lbs. \$1.50.

OYSTER SHELLS—100 lb. sacks \$1.75.

Zenoleum is the best disinfectant and dip on the market. Nothing equals it for spraying and cleaning up diseases in poultry and hog houses, barns and outbuildings, dipping stock for vermin and skin diseases. Fifty experiment stations in the U. S. recommend it. Sold on a guarantee.

Price 1 qt. can 75c; $\frac{1}{2}$ gal. can \$1.25; 1 lb. Louse Powder 30c.

BIRD SEED

We have a very fine mixture of bird seed composed of Canary, Rape, Hemp and Millets. Price per lb. 20c; 10 lbs. \$1.60.

Canary Seed in bulk 1 lb. 20c; 5 lbs. 90c; 10 lbs. \$1.75.

Bird Rape in bulk 1 lb. 20c; 5 lbs. 90c; 10 lbs. \$1.75.

Bird Hemp in bulk 1 lb. 20c; 5 lbs. 90c; 10 lbs. \$1.75.

Bird Millets in bulk 1 lb. 15c; 5 lbs. 60c; 10 lbs. \$1.00.

Nursery Department

APPLES

There are a few varieties of apples that do exceedingly well in the north and with just a little care will soon grow up and bear fruit abundantly. And then there is the ornamental phase. What is more appealing than an apple tree loaded with fragrant blossoms.

Keep away from planting Delicious, Jonathan and a great many of varieties the southern nurseries push. If any variety is hardy for the north, we will have it.

Cultivate around your apple trees as well as any other planting you make. Keep in mind the planting of corn. Where corn will grow well you can expect apple trees to be. You never expect to even mature a stock of corn if planted in the sod, so don't expect a tree to perform a miracle if planted like a fence post.

We have an extra fine lot of transplanted apple trees this year with fine roots and which will please you immensely.

We are pricing the hardy dependable varieties only at a very low figure.

ANISISM—Trees grow upright and bear profusely, hardy and free from blight. Fruit medium size, dark red and of good quality.

CHARLAMOFF—Hardy, thrifty, early and regular grower. Green splashed with red, hangs on tree well. A choice dessert apple.

DUCHESS—A favorite early apple. A good bearer of large green apples, striped with red, fine pie apple.

HIBERNAL—The hardiest of all apples. The best for top working. Bears large green apples and the best of all pie apples.

OKABENA—Originated in Minnesota. Quite similar to Duchess

PATTEN'S GREENING—A vigorous and thrifty grower and a good bearer of green apples that later turn yellow. Good keeper.

WEALTHY—The best of the large apples for eating. Fruit red and a good keeper. Originated in Minnesota.

YELLOW TRANSPARENT—Hardy grower of the earliest of the summer apples. A fine eating as well as cooking apple.

Price for all apples 3 to 5 feet 50c each, per 10, \$4.00.

We have a few large sized Duchess, Hibernal, Patten's Greening and Wealthy for sale at \$1.00 each. Well worth twice as much and if you desire the larger trees to plant, order some of these as they will please you.

CRAB APPLES

FARIBAULT—One of the very best of the crabs. Trees a spreading and thrifty grower. Fruit yellow, splashed with red. We have grown this variety for years and we never failed to have a crop every year.

CRAB APPLE (Con't.)

FLORENCE—A hardy, spreading tree, bearing very young and very heavy. Fruit medium size, carmine colored. Flesh yellowish, excellent for cooking.

MINNESOTA—Fruit medium in size, greenish yellow splashed over with reddish stripes. Flavor mild and sweet.

RED SIBERIAN—Hardy and fine for jelly.

TRANSCENDENT—Originated in Russia. A good bearer of firm and juicy fruit. Very popular.

WHITNEY No. 20—An upright, hardy and healthy grower. Fruit rather large, color nearly red when ripe. Becomes mellow if left too long on the tree. One of the very best eating apples we grow.

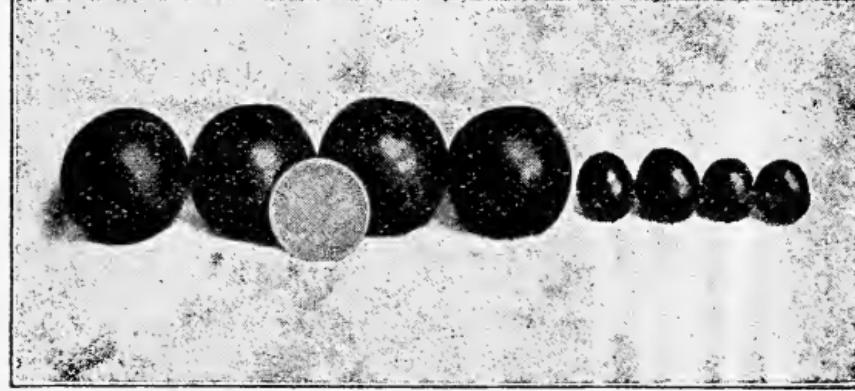

YELLOW SIBERIAN—Heavy bearer. Good for canning and jelly.

Price for Crabs 3 to 5 feet 50c; per 10, \$4.00

DOLGA—Prof. Harris' new crab. Bears young and is prolific. Fruit oblong and bright red. Extra fine for jellies and pickling.

Price \$1.00. Per 10, \$7.50.

PLUMS

Tame And Wild Plums

South Dakota is a natural plum state and plums are so easy to raise and the fruit is so well liked that it is surprising that not more are raised. Failure with sturdy well grown trees that we are selling is very unlikely. If planted in groups or near one another, they seem to pollinate better. Plum trees start to bear generally the first year after setting them out. Our trees are budded and grafted on native plum stock and you will find them perfectly hardy.

Plant in cultivated land or where you can irrigate. Keep all sprouts hoed out.

DE SOTO—The standard hardy plum. Fruit medium. Color red when ripe. Flesh yellow and firm. An excellent variety for home use. Liable to overbear, in which case the fruit should be thinned out.

SURPRISE—One of the finest American plums juicy and sweet. Good keeper.

TERRY—One of the largest of American plums. Fruit bright red, flesh firm, ripens in September. We do not think it is quite as hardy as the others listed.

WOLF—A very hardy and desirable plum. Fruit about the same size as De Soto, having a small pit. Has pleasant acid flavor.

WYANT—A thrifty grower making a fine tree for the orchard. Is a heavy bearer of good sized fruit. Color yellow and red. Ripens before the De Soto.

Plum Prices 3 to 5 feet transplanted 65c each; per 10, \$6.00.

HANSEN'S PLUMS

HANSKA—Thrifty grower, apricot flavor, fruit large, color bright red, fine for canning.

OPATA—Very prolific, bears early in life, color of fruit dark purple with small pit, pleasant tasting. We place this variety our first choice.

SAPA—Prolific bearer of dark purplish medium size plums, extra fine for canning. Probably not quite as hardy as the above.

Price 3 to 5 feet transplanted 65c; per 10, \$6.00.

WANETA—Prof. Hansen's latest and best plum. As large as the California plum and better tasting. Color of fruit red.

Price 3 to 5 feet transplanted 75c each; per 10, \$7.00.

COMPASS CHERRIES

This is one of the most reliable and best bearer of any of the plums. Fruits first year after setting out. Makes the most excellent jelly and preserves. No planting is complete without Compass Cherry.

Price 3 to 4 transplanted 65c; per \$6.00.

NUTS

HAZELNUT—A native shrub from Minnesota. Hardy but seems to thrive better if planted where it will have some little protection. ----- 50c

BLACK WALNUT—Grows to be a beautiful shaped tree and bears well after the tree gets to growing good. We have had trees bearing for quite a few years. Small transplanted trees ----- 25c

NATIVE FRUITS

Distance lends enchantment to all of us and it is a great temptation to all of us not to order from a highly colored catalogue a Delicious Apple, Loring Plum, Elberta Peach or some other new and untried fruit and neglect that which grows wild at our door step. There are so many places for the native fruits and you will find most of them ornamental as well as useful. Here is a list and more fully described under ornamental shrubs.

BUFFALO BERRY—Price each 25c; per 10, \$2.00

BLACK Currant—Price each 25c; per 10, \$2.00

CHOKE CHERRY—3 to 4 feet 25c; per 10, 2.00;

4 to 5 feet 35c; per 10, \$3.00.

SAND CHERRY—Price each 25c; per 10, \$2.00

WILD BLACK CHERRY—Each 35c; per 10, \$3.00

WILD OR NATIVE PLUMS—each 25c; per 10,

\$2.00.

We do not want you to liken us to the average tree agent as when you sign on the dotted line with an agent you have no comeback as it binds you to pay and accept the order whether you are satisfied or not. It is different with us. If you are not satisfied with the shipment you get from us, send it back and your money will be refunded or adjusted to your satisfaction.

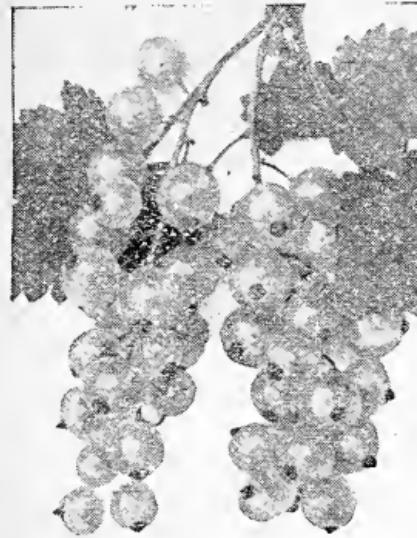

Tulips and Peonies and Iris are three of the flowers that can be set out in the fall. At that time we get in our shipment of Dutch bulbs and will be pleased to send you a list of the Tulips, Peonies and Iris. The Iris should be set out by September 1st, but Tulips and Peonies can be set out anytime before it freezes up, but are better if transplanted reasonably early.

SMALL FRUITS

Don't hesitate to plant plenty of the following list of dependable small fruits. Nothing better for jellies, jams and preserves.

All small fruit is composed mostly of water, so do not forget to give the plants a chance, not only to live, but to store up enough extra vitality to produce a crop worth while.

Currants

PERFECTION—One of the new varieties and is a wonderful bearer of large juicy and mild acid red berries. One of the very best grown. Price each 35c; per 10 \$3.00.

RED DUTCH—An old standard, reliable and productive grower. Planted more extensively than any other variety. Medium size, red berry.

WHITE GRAPE—Standard white, very mild flavor.

VICTORIA—A vigorous grower, red in color, medium size and excellent variety.

Price on above currants 25c each; per 10, \$2.00

Red Raspberries

We grow only the Prof. Hansen's new varieties as these are the only ones that will withstand our climatic conditions. While it is not absolutely necessary, a light covering during winter, or planted where the snow will bank up around them, will give one more berries.

SUNBEAM—Is the hardiest and a very prolific bearer of fine juicy fruit.

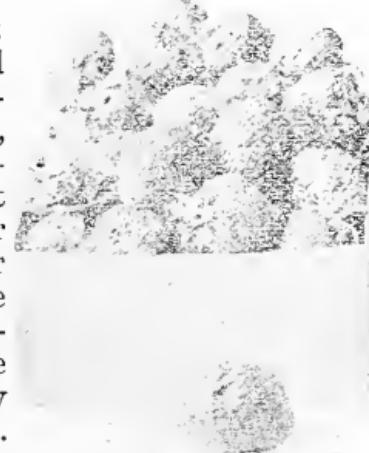

Price per 10, 75c; per 50, \$2.50.

OHTA—Hansen's improved, fruit larger than Sunbeam. Tender and juicy.

Price per 10, \$1.00; per 50, \$3.00.

Strawberries

Strawberry plants must be set out in well subdued soil and must be well cultivated and if the season is dry, irrigate as the fruit is mostly water and must have that element to mature their fruit to perfection. After the ground is frozen in the fall the plants must be covered lightly with some coarse litter and gradually raked off in the springtime.

SEN DUNLAP—Finest summer variety, large and juicy and a good bearer.

Price per 50, 75c; per 100, \$1.25—Prepaid.

PROGRESSIVE—Standard reliable everbearing, true to name. Have strawberries and cream and shortcake all summer long.

Price per 50, \$1.25; per 100 \$2.20 prepaid.

Juneberries

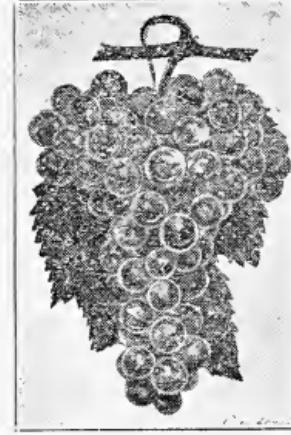

SUCCESS—We are the only nursery in the west that is offering this improved Juneberry. Never fails to fruit, very hardy and dependable. Fruit large, juicy and less seedy than the native.

Price each 35c; per 10, \$3.00.

NATIVE—Each 25c; per 10, \$2.00.

Grapes

Grapes to do the best, except the native, should have some winter protection and be covered lightly with litter or snow or laid down and covered lightly with earth. Our experience has been that where they have some protection, they bear much heavier.

BETA—Is a cross between tame and wild, hardy, prolific and fine for cooking and jelly. Color similar to Concord.

ALPHA—Originated in Minnesota. Hardy and prolific, extra fine. Color blue black.

NATIVE—This is the wild grape.

Price on all grapes, each 25c; per 10, \$2.00.

Carrie Gooseberry

HOUGHTON—This is the old standard, prolific hardy, reliable variety.

Price each 25c; per 10, \$2.00.

CARRIE—The best of all. A vigorous grower of good sized berries. Very prolific. Color green,

Price each 35c; per 10, \$3.00.

Asparagus

The earliest and the healthiest of all vegetables. Plant about 4 inches deep in rich soil. Will last a lifetime.

WASHINGTON—A new variety originated by the U. S. Department of Agriculture. Extra large and fine and the coming asparagus. Price yearling plants 50 for \$1.50; 100 for \$2.50 2 yr. plants 50 for \$2.00; 100 for \$3.00.

PALMETTO—The old reliable variety. Price, large thrifty plants, 50 for \$1.00; 100 for \$1.50.

Rhubarb or Pie Plant

The best early fruit and one of the best tonics. Fine for pies, sauces and canning. Plant loves a rich, moist location and is a gross feeder. Needs dividing every third year. The plants we offer are large and matured.

MAMMOTH—The largest, juicy and very tender.

PINEAPPLE—A distinctive variety, as its name implies.

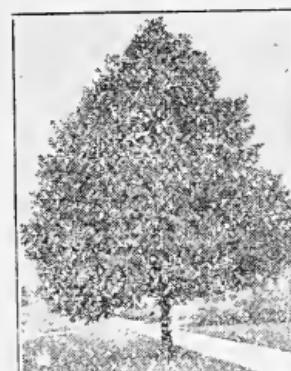

Price each 15c; per 10, \$1.25.

HORSERADISH—Hardy anywhere. Fine for relish. Each 15c; 10 for 60c.

Catnip

Price each 15c; per 10, \$1.00.

SHADE TREES

We propagate our own trees and take particular pains that the parentage is grown in the north. Shade trees brought in from the south or east generally winter kill and prove failures.

We do not compete in price with the southern and eastern nurseymen. We cannot do it, because it takes us a third to twice as long to grow our stock as our nursery is located on the high prairie land, but when we send our products out we know for a certainty they will stand up better, being grown under similar conditions where the tree will be transplanted to. All of our stock will be shipped the same day as dug and which insures better success than if the stock was dug last fall and cellared like most nurseries handle their goods. Our trees will come to you in the pink of condition.

The following prices are for transplanted trees. This means an extra developed root system which means so much to the life and after development of the tree.

AMERICAN ELM—Without question the Elm is the best ornamental tree we grow for street purposes and for around buildings. Absolutely hardy and dependable. The graceful Elm gives a finished appearance to any home. We have an extra fine lot of all sizes that cannot be duplicated and that will please the most exacting.

	Each	Per 10
4 to 5 feet	30c	\$2.50
5 to 6 feet	40c	\$3.50
6 to 8 feet	60c	\$5.00
8 to 10 feet	85c	\$7.00
10 to 12 feet	\$1.00	\$8.50

ASH—Native and extra hardy and a great drought resister. Will respond to kindly treatment and make a good sized tree if cultivated and watered well.

	Each	Per 10
3 to 4 feet	15c	\$1.00
4 to 5 feet	25c	\$2.00
5 to 6 feet	35c	\$3.00
6 to 8 feet	50c	\$4.00
8 to 10 feet	75c	\$6.00
10 to 12 feet	\$1.00	8.50

BOX ELDER—One of the standbys, makes the densest of all shade trees, does well in alkali and gumbo soils.

4 to 6 feet 35c \$3.00

COTTONWOOD—This native tree we consider the best for windbreak purposes. Absolutely hardy, fast grower, sometimes growing 6 feet in a single season. A good background and alley tree, in fact is good anyplace. A tree that is associated with nearly all the early history incidents of our state and it deserves more kindly treatment than it sometimes receives. We have an extra fine lot this year.

	Each	Per 10
4 to 5 feet	20c	\$1.75
5 to 6 feet	30c	\$3.50
6 to 8 feet	40c	\$3.50
8 to 10 feet	50c	\$4.00

MALE COTTONWOODS—Selected from a native tree and does not have the cottony seeds that some object to.

4 to 5 feet 50c
5 to 6 feet 75c

NORWAY POPLAR—Called the sudden log tree on account of growing so fast. Is not considered a long lived tree. Each Per 10
3 to 4 feet 20c \$1.50
4 to 6 feet 30c \$2.50

NORTHWEST POPLAR—This is a native poplar and presumed to be a cross between the native Cottonwood and the Balm of Gilead. Tree is a rapid grower, hardy and dependable. Our trees are extra fine ones. Each Per 10
3 to 4 feet 25c \$2.00
4 to 6 feet 35c \$3.00

SILVER LEAFED POPLAR—Fine for landscape and ornamental purposes. Each Per 10
3 to 4 feet 25c \$2.00

RUSSIAN OLIVE—Fine for landscape purpose. Will withstand droughty condition. Blossoms have a very sweet scent and stony fruit readily eaten by birds during winter. 3 to 4 feet, 25c; Per 10, \$2.00.

LAUREL LEAFED WILLOW—For specimen purposes we believe this is the finest of all the willow family. The dark shiny leaves and vivid green barks are very attractive. Is not subject to worm pests. Each Per 10
4 to 5 feet 35c \$3.00
5 to 7 feet 50c \$4.00

RUSSIAN GOLDEN WILLOW—The light green leaves with the golden bark fits in fine for variety. Absolutely hardy. Each Per 10
4 to 5 feet 25c \$2.00

NIobe WEEPING WILLOW—This is the only hardy weeping willow. With its long pendulant and drooping limbs makes one of the most beautiful of all specimen trees. All willows do best in moist places. Plant a Niobe where you throw your wash water. Each
3 to 4 feet 35c
4 to 5 feet 50c
6 to 8 feet 75c

LINDEN OR BASSWOOD—This is a handsome lawn and shade tree, pyramidal in form with large, bright green leaves. Each 50c; Per 10 \$4.00

WILD BLACK CHERRY—Native, ornamental as well as useful. Small black cherries good for jelly and the birds. Each Per 10
2 to 3 feet 25c
6 to 8 feet 75c

EVERGREENS

There is not a tree as useful as the evergreen. When fully grown it is a protection in summer against hot winds and in winter from icy blasts, a comfortable tree for man and beast.

Our prices are for transplanted stock and which are shipped with dirt around the roots. Our past experience has not been the rosiest as when we shipped with roots packed in moss it allowed too much exposure to the wind and sun which an evergreen root cannot stand for a minute. When received see that it is planted without any delay and have a tree that you can enjoy the year around.

COLORADO BLUE SPRUCE—For lawn specimen this spruce stands foremost. 18 inch \$1.50
12 inch \$1.50

COLORADO BLUE SPRUCE (Select)—These are the silvery leafed spruces, called shiners and the most beautiful of all specimen evergreens. 12 inch, \$1.50.

BLACK HILLS SPRUCE—Very desirable for ornamental and cemetery purposes and we think the best of the spruces for us to plant.

Each	Per 10
12 inch 60c	\$5.50
18 inch 85c	\$7.50
2 feet \$1.25	\$10.00

BLACK HILLS PINE—Best of all the pines.

Each	Per 10
18 inch 75c	\$6.00
2 to 3 feet \$1.00	\$8.00

JACK PINE—Hardy and good for windbreak.

12 inch 35c	\$3.00
18 inch 50c	\$4.00

RED CEDAR—Best of all drought resisters.

2 to 3 feet 75c	\$6.00
2 feet each 75c	

All Evergreens Bailed and Burlapped.

HEDGES

There is no planting that so emphasizes distinction as a nice, well kept hedge. For landscaping it is effective and is useful for dividing lines, screens, shutting off an undesirable view and lends an air of seclusion.

Set plants from 12 to 18 inches apart in the row. When plants are set, cut back to about three inches of the ground. The following year trim back to about six inches and the third year to within nine inches and one foot. This will give the base a chance to thicken up, which is necessary to make a compact, good appearing hedge. Many make the mistake of waiting too long before trimming back.

Per 100

BUCKTHORN—We believe this is by far the best of all hedges. Beautiful colored leaves that cling late in the fall. Trims up easier and does not get as coarse. Hardy and dependable. ----- 7.50

CARAGANA—Or Siberian Pea Tree ----- \$5.00

FLOWERING Currant—Native. Ornamental as well as useful. ----- \$10.00

RUSSIAN OLIVE—Hardy and good drought resister. ----- 3.50

URAL WILLOW—From Siberia. Makes a very graceful hedge. Also a good basket willow. 7.50

VINES

AMERICAN IVY—Hardiest, most reliable of all climbers. A rapid grower. Strong transplanted plants. Each 35c; Per 5, \$1.25.

CLEMATIS PANICULATA—Similar if not the same as the native Clematis. A good grower, having a small white flower and later turning to a white cottony seed. Strong transplanted plants. Each 35c; Per 5, \$1.50.

SCARLET TRUMPET HONEYSUCKLE—Best for covering low screens, etc. It is one of the most cheerful blossoms of scarlet flowers and is very desirable for bouquets and decorating. Extra strong transplanted plants.

Each 35c; Per 5, \$1.50.

WILD GRAPE—Native; makes a good climber for screens, etc. Price each, 25c; Per 5, \$1.00.

BITTERSWEET—Native and an extra fine climber. Fruit ornamental. Price each, 35c; Per 5, \$1.50

SMALL TREES

ASH—

BOX ELDER—

COTTONWOOD—

ELM—

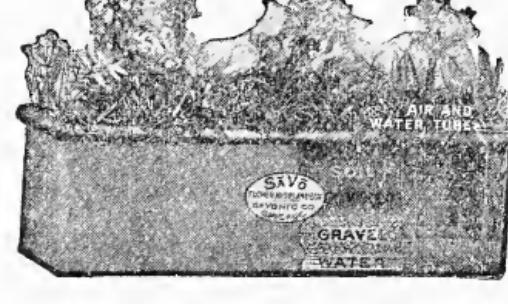

Price for above. 12 to 18 inch per 100 \$1.50
RUSSIAN OLIVE— 12 to 18 inch per 100 \$3.50

Willow Cuttings..

Diamond Willow, Golden and Laurel Willow -----
per 100 .75
URAL WILLOW per 100 \$1.00

"The nursery stock we received was fine and came through in excellent condition."

SAVO WINDOW BOX

Self Watering

For windows, porches and sun parlors. Made of metal and are leak proof and rust proof. No surface watering.

Dark green enamel finish. The most efficient durable and artistic plant box made.

Price 29 inch long \$4.00 each.

32 inch long \$4.50 each.

41 inch long \$5.00 each.

CERTIFICATE OF NURSERY INSPECTION

Office of State Entomologist

Brookings, S. D., Sept., 1924

THIS IS TO CERTIFY that the nursery stock growing in the Northern Seed and Nursery Co., of J. B. Taylor, proprietor of Ipswich; South Dakota, has been inspected by Severin and Gilbertson duly appointed inspectors of this office in accordance with the provisions of Chapter 260, Session Laws of 1917, State of South Dakota and permission is hereby granted said nursery to sell and ship nursery stock which has been officially inspected and found apparently free from injurious insects, Arachnids, worms and dangerous plant diseases. This certificate is valid until July 1st, 1925, unless revoked.

Resident Nursery Certificate No. 203.

H. C. SEVERIN, State Entomologist.

Ornamental Shrubs

Here you will find listed on'y the hardiest of all the ornamentals. For banking around foundation and for landscape effect the ornamentals must be used.

Be very liberal in planting from this list. The first year's satisfaction in having these associates with you, just make life worth living. Don't lose the best part of your life by not making a liberal planting of our hardy ornamental shrubs.

AMERICAN ELDER—Green showy leaves with white flower ----- 25c

AM. WAHOO OR STRAWBERRY TREE—Native hardy leaves very showy with brilliant colored berries that hang on the tree all winter, very desirable ----- 35c

AMUR MAPLE—This is a very hardy small maple from Siberia, especially noteworthy on account of its beauty of shape and foliage and the glowing colors which it takes on in the fall. ----- 35c

BLACK HILLS BLOOMING WILLOW—A new dwarf willow, very showy, silvery foliage, flowers yellow, blossoms all summer long ----- 50c

BLACK HILLS BIRCH—Coming from the Black Hills we think will be hardier than the other white birches, but like all birches will do better if planted in a partially shaded place.

BUFFALO BERRY—A native strong grower ----- 25c

BUCKTHORN—Extra reliable ornamental as it can be pruned or trimmed to any shape desired. ----- 35c

CARAGANA OR SIBERIAN PEA TREE—Bark and leaves very attractive with yellow pea shaped blossoms in early summer, large size ----- 35c

CHOKE CHERRY—Desirable showy, strong growing native, no blossoms more sweetly scented 35c

DOGWOOD—Siberian strain, red showy bark with white flowers, very desirable for landscape work Will stand partial shade. ----- 40c

FLOWERING ALMOND—Flowers are pink and like little double roses, very popular. ----- 75c

GOLDEN ELDER—Golden leaves with white flowers. Very showy and ornamental ----- 50c
Both elders will sometimes freeze to the ground but make a luxurious growth every season.

FLOWERING CURRANT—A hardy, desirable, ornamental. Profuse bloomer of sweet scented yellow blossoms followed by a black edible currant. Each ----- 35c

HIGH BUSH CRANBERRY—A very desirable ornamental, quite similar to snowball in blossoms, fruits fine for jelly. ----- 50c

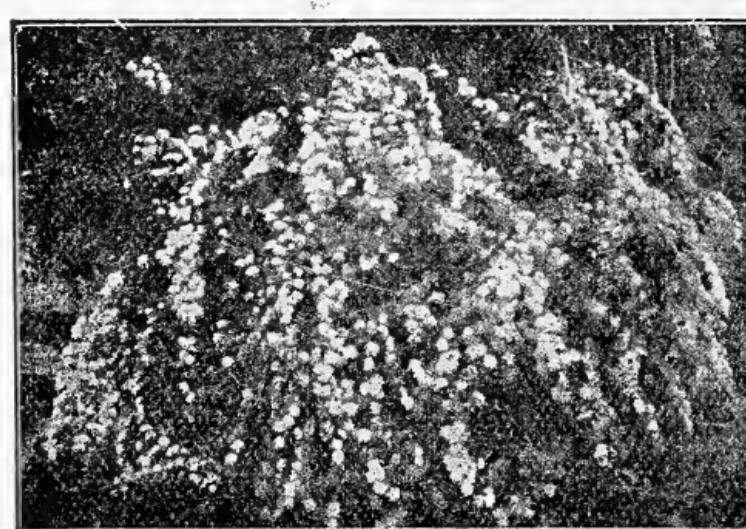

HONEYSUCKLE-TARTARIAN—Is one of the most dependable and best ornamentals grown, the sweet scented blossoms remembered long after they fall. Light orange colored berries in late summer and early fall make it one of the outstanding of the ornamentals. Comes in three colors, red, white and pink. Fine bushy plants, not little yearling slips. Absolutely hardy everywhere. ----- 50c

JAPANESE BARBERRY—Loaded with red berries in fall, is very effective. ----- 35c

JASAMINE—A shrubby semi-climber, extremely hardy, purplish blossoms. ----- 25c

JUNEBERRY—Native, blossoms white, the fruit of the Buffalo Berry, Choke Cherry and Juneberry are good for jelly. ----- 35c

MAY DAY TREE —A bird cherry from Siberia. Very ornamental. First to leaf out in the spring, blossoms white, fruit quite similar to choke cherry. -----	75c
MANITOU —An early spring-flowering tree or shrub, dwarf to medium size, producing great masses of bloom but no fruit. A hardy cross between Siberian almond and peach. Originated at Minnesota experiment station. Each	75c
PYRUS BACCATA OR WILD APPLE —An upright pruned specimen with miniature apples in the early fall -----	50c
PRUNUS TRILoba OR FLOWERING PLUM —A very popular ornamental with double rose flowers that blossom early in the season. -----	75c
SIBERIAN ALMOND —Prof. Hansen's find, earliest to blossom, color rose pink and fragrant. -----	50c
SUMAC —Leaves fern like turns to crimson in the fall. Very desirable to plant with other ornamentals. Stands trimming and can be kept at any desired height.	
SNOWBALL —An old favorite, no planting is complete without this standby. -----	50c

SPIREA VAN HOUTTEI OR BRIDAL WREATH —The old favorite hardy white. Very desirable.	35c
SPIREA ARGUTA —The earliest of the spireas, blooming before Van Houtte, flowers in massed umbels, color white. Very beautiful and hardy.	
-----	35c
SPIREA BILLARDI —With pink blossoms, no collection complete without this desirable ornamental.	35c
SPIREA BUMULDA —Rosy colored blossoms, desirable.	35c
SYRINGA OR MOCK ORANGE —Not extra hardy, showy white blossoms.	35c
TAMARIX AMURENSIS —A tall growing shrub with feathery foliage that resembles the Juniper. Has small pink flowers and the contrast with the foliage makes a very attractive and ornamental shrub. Quite hardy.	50c

CUT FLOWERS

During the late spring, summer and early fall months, we have an abundance of beautiful perennial and annual blossoms, oceans of Iris, Peonies, and Gladioli and can furnish cut flowers, bouquets, and for any occasions, sprays and designs for parties, weddings, funerals, upon short notice. We give special values that will please you. Phone or write us. We guarantee you quick service and satisfaction.

Lilacs

No place is quite complete without the Lilacs. The hardiest of all the shrubs, absolutely dependable and there is no scent as welcome and refreshing. All the world loves the Lilac. The newer varieties blossom at an early stage and are really beautiful. No shrub will stand the abuse and last as long as the lilacs.

	Each
COMMON PURPLE—	25c
COMMON WHITE—	35c
PERSIAN—Not as strong a grower but very graceful and showy, early blossomer.	35c

The New Lilacs

The new Lilacs start blossoming very early in life. Perfectly hardy and sweet scented.

ALPHONSE LA VALLE—Blue blossom	50c
MADAM LEMOINE—A large beautiful white	50c
JOSIKEA—A sturdy purple	50c
VILLOSIA—Light purple	50c
DR. BRETSCHNEIDER—A strong growing white	50c
SEN VOLLAND—A rosy colored blossom	50c
MADAME CASIMER PERIER—Creamy white	50c
LUDWIG SPAETH—A very desirable purplish red	50c
CHINESE TREE LILAC—Grows to quite a tree, white blossoms. A little tardy to start blossoming	50c

DUTCH BULBS

These are the harbingers of spring and are the first flowers to welcome us with their sweet fragrance. These must be planted in the fall and we will be pleased to send you our Dutch Bulb list during the late summer with descriptions of Tuips and varieties. If you wish this list sent just write on your order "Send bulb list when issued."

When a firm will give you the privilege of returning your order if not satisfied and your money refunded, you can expect to get your money's worth.

ROSES

We only wish we had a larger list of hardy roses, but what we are offering outside of the semi-hardy ones are very satisfactory and stand our climate fine. Roses like good soil conditions, but cannot stand fresh fertilizers around the roots. Trim out old stocks every spring after the bush commences to leaf out. One ad-

'nogas and perpetuums are that if the rose slug stings the first buds they will keep on throwing out new buds and you will have plenty of blossoms.

HARRISON'S YELLOW—The standard early blossoming yellow	50c
TAYLOR'S DOUBLE WHITE—A very desirable double white	75c
HANSA RUGOSA—A semi-double dark red, extra fine, vivid red seed pods add to the ornamental value	75c
ELANC DE COUBERT RUGOSA—A semi-double pure white, like Hansa, blossoms all summer	75c

SEMI-HARDY ROSES

To satisfy some of the rose lovers and to demonstrate that for the north there are but a short list of hardy roses, we are offering a few varieties that will do well provided (note provided) they are covered with dirt in the late fall and uncovered in the spring and cut back where growth is green. These are varieties that agents generally recommend as hardy but don't let them fool you. They must be protected in winter.

FRAU KARL DRUSCHKI—Flowers very large, beautiful, pure white. This is the best white Hybrid Perpetual.

GENERAL JACQUEMINOT—Brilliant crimson; not full, but large and extremely effective; fragrant and of excellent hardy habit.

PAUL NEYRON—Deep rose color. By far the largest variety in cultivation. A free bloomer; very desirable as a garden rose.

Price of above varieties, each 75c.

LILLIES

FULVA DAY LILY—Tall growing, hardy, orange colored flower, fine for background 25c

LILY OF THE VALLEY—Dainty and very sweet scented. Do best on north side of buildings or in partial shade 15c

SINGLE TIGER LILY— 15c

DOUBLE TIGER LILY— 20c

STUNG

Bargain collections and cheap prices generally mean little tender slips or dried up plants. Did you ever fail to get stung when you bit for a bargain collection? Buy from us and if you do not think you are getting your money's worth, send any thing back and we will substitute or send you back your money. What's fairer?

We don't care what you buy from us. If not satisfactory ship it back and we will refund your money.

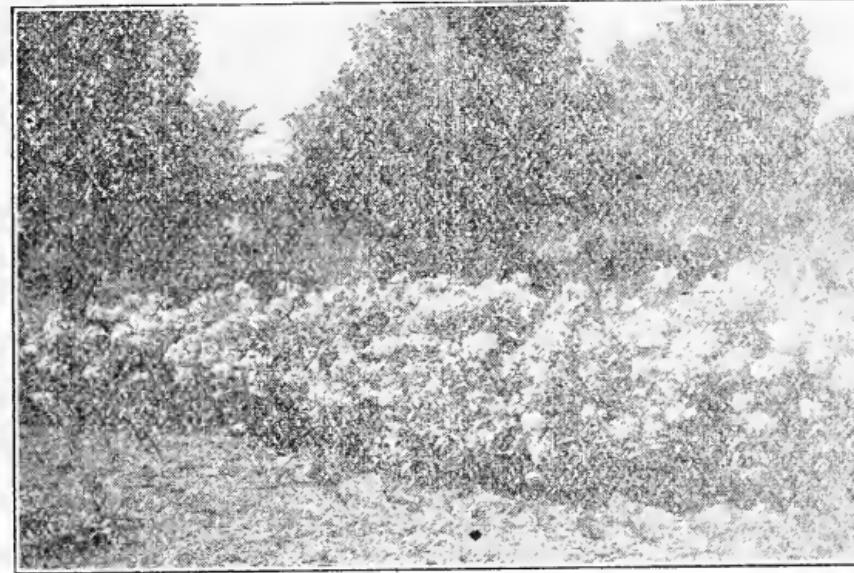

Perennial Flowers

No home is quite complete without a good collection of the hardy perennials. Here nature tries to outdo herself in arranging all the delicate tints of the rainbow, exhaling the sweetest of the perfumes and a home without the perennials is like a home without a mother. A little protection in winter helps and a little care to see that weeds and grass do not choke them will repay one a thousand fold.

Each

ACHILLEA—A delightful white, profuse bloomer, fine for bouquets. ----- 25c

BLEEDING HEART—With heart shaped red flowers, a favorite. ----- 50c

BOUNCING BETTY

BOUNCING BETTY—A very profuse and hardy bloomer of pinkish white flowers. One of the very best outside flowers. ----- 35c

COLUMBINE—Easy of culture and always a welcome flower, colors mixed. The new hybrids are beautiful. ----- 25c

GIANT DAISY—A strong, late summer blossomer, extra fine. A good background flower ----- 25c

GYPSOPHILLIA OR BABY'S BREATH—Delicate white flowers, fine for bouquets ----- 25c

LAVATERIA—Siberian strain, healthy bearer of pink flowers, a fine plant for background ----- 35c

LARKSPUR BELLA JONNA—Free and nearly continuous bloomer of light blue flowers ----- 25c

LARKSPUR FORMOSUM—The old dark blue favorite and still very popular ----- 25c

LYCHNIS—Easy of culture and hardy, colors red, and white, good for background ----- 25c

PLATYCODON OR JAPANESE BELL FLOWER—(Stake plants at flowering time) extra fine colors, white and blue ----- 35c

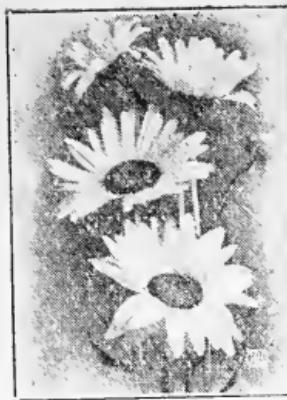

PINKS—Sweet scented and like miniature carnations comes in mixed colors ----- 25c

PHILOX—One of the best and showiest of the perennials, blossoms during the best part of the summer and early fall when flowers are scarce. Fragrant, fine for bouquets. Colors red, white and pink ----- 20c

RUDBECKIA OR GOLDEN GLOW—Popular, showy yellow flowers, for background planting ----- 25c

RIBEON GRASS—Very ornamental and showy. Leaves are striped ----- 25c

YUCCA—A native. These keep green entire year. Flowers a beautiful white. ----- 50c

SHASTA DAISY—The best and largest of the summer daisies. A good showy blossomer. Grows about 18 inches tall. This is one of Burbank's flowers and is one of the popular daisies. A little protection in winter will help as it is not iron clad hardy. ----- 25c

IRIS

Truly called the orchids of the garden. All the variety of tints imaginable. There are three divisions of the Iris family, Pumula or early, Liberty or large flowering and Siberian, the last to flower. Very easy of culture and will stand dry weather better than nearly any other flower.

Early

PUMULA PURPLE —The old Flag of Grand- ma's day -----	10c
PUMULA BLUE —Very delicate, sky blue -----	15c
PUMULA GOLDEN —Very choice, extremely dainty -----	20c

Large Flowering Iris

AUREA —One of the best of yellows -----	20c
BLUEBEARD —The best of the even shades of blue. -----	25c
CANIDA —Pale lavender -----	15c
DELICATA —Lilac and lavender -----	20c
FLORENTINA ALBA —White -----	25c
HER MAJESTY —Soft rose, very beautiful -----	25c
KHEDIVE —Pretty lavender -----	20c
LA TENDRESSE —Lavender and lilac -----	15c
MADAM CHEREAU —White, frilled with vi- let, beautiful -----	25c
PALIDA DALMATICA —Queen among Iris, delightful lavender, large -----	25c
PRINCESS VICTORIA LOUISE —Extremely fine, large and very beautiful -----	35c
QUEEN OF MAY —Soft lilac rose, rare -----	35c
SAN SOUCI —Golden and mahogany red, very attractive -----	15c

Siberian

DISTINCTION —Beautiful blue sprinkled with white -----	20c
LADY GODIVA —White, flushed rose, very at- tractive -----	25c
ORIENTALS —A beautiful deep blue. -----	15c
SNOW QUEEN —White, golden throat, late, very fine -----	20c
SUPERBA —Large violet blue -----	20c

COLLECTION OF IRIS

Ten Iris of a mixed lot of six or more varieties
for \$1.00.

CUT FLOWERS

We ship thousands of peony blossoms during the month of June and they are becoming particularly popular to June brides for bouquets and decorations and in fact for any doings. Boxes of these lovely creations run from \$1.00 and up and if you are not satisfied with any shipment we make, just write us and we will leave it to you to determine what they are worth. Remember the shut-ins and their thanks of delight will repay you for these lovely creations,

PEONIES

Of all the perennial flowers we grow, we think the peony is the best. We do not know of any other flower that will stand the test of our climate better and award us with such a gorgeous splendor of all of the wonderful shades of red, pink and white, as the peony. Be liberal in planting this flower and even though you pay \$10.00 for a plant remember that it will stay with you a lifetime when once established.

Planting Directions

See that your plants have a chance by planting them in well subdued and rich soil in a sunny location and away from trees or anything that will take the moisture and substance necessary for the growth of the flowers. Remember that the flowers are monstrous affairs in proportion to the plant and must be fed well during the year to bring forth the grandest blossoms any plant is blessed with. In planting, cover the eyes about two inches. Do not place fresh fertilizer near the roots. Mulch lightly the first winter.

The prices quoted are for good three and five eye divisions—not little pared down stubs some send out.

REDS

ANDRE LAURES—A fragrant magenta red	\$.50
DELACHEI—Rich purplish red. A great favorite	.75
EMIL LEMOINE—Symetrical light purplish red	1.50
FELIX CROUSSE—Rich brilliant ruby red. Very attractive and one of the best	.75
LOUIS VAN HOUTTEI—Velvety cerise red	.50
LA SUBLIME—Rich deep crimson, free bloomer	.50
KARL ROSENFIELD—Unsurpassed early brilliant red. Blossoms large and compact.	2.50
MARY BRAND—Large vivid crimson, strong grower, new	6.00
OFFICINALIS RUBRA—The old fashioned early red	.75

"Just to let you know that our order arrived O. K. and is doing fine. Was very much pleased with the Peony roots which are showing a sturdy growth."

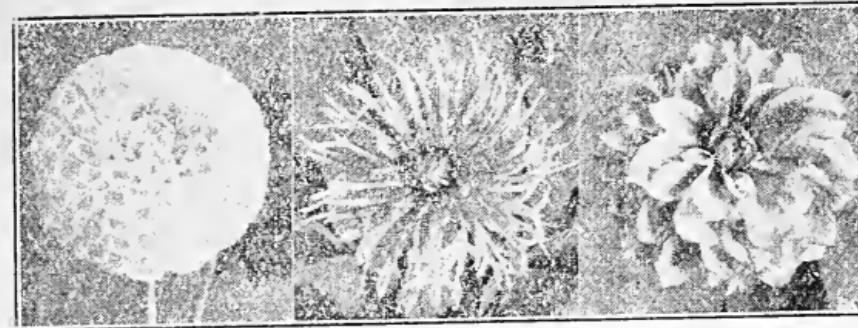

WHITES

COURONNE D'OR —Called the famous crown of gold. Late, fragrant, one of the best.	1.00
DUCHESS D'NEMOURS —Large sulphur white, free bloomer	.75
DUKE OF WELLINGTON —Center sulphur white. One of the best for cut flowers.	.50
FESTIVA MAXIMA —The most popular of the whites. Early, very large, center flecked crimson	.75
MME. D'VERNVILLE —Exquisite sulphur white productive, early	.75
MARIE LEMOINE —A wonderful white with yellow shading touched with pink, strong grower, late	.75
LA TULIP —White flecked with carmen. Good keeper.	.75
BOULE DE NEIGE —Milk white, guards flecked, unpleasant odor	.50
QUEEN VICTORIA —A favorite cut flower variety	.50

PINKS

ACHILLE —Shell pink, vigorous grower	.40
ASA GRAY —Large, lilac shade, midseason, fine	.75
BARONESS SCHROEDER —Extra large, tall free blooming, rose type.	1.00
EDULUS SUPERBA —One of the most popular early pink.	.50
EUGENE VERDIER —Hydrangea pink, large midseason, extra.	1.00
FLORAL TREASURE —A superb large pink	.50
FRAGRANS —A fragrant violet rose.	.50
GRANDIFLORA ROSEA —Even clear pink, early	.50
HUMEA —A cinnamon scented, late, large pink.	.50
JEANE D'ARC —Soft pink, sulphur white and rose	.50
L'ESPERENCE —A favorite deep pink.	.75
LIVINGSTON —Soft pink, lilac rose, full bloom.	.75
MATILDE MECHIN —Lilac rose.	.50
MARGUERITE GERARD —Showy pink, creamy center.	.75
MADAM CALOT —Pinkish white, strong grower	.50
MONS JULES ELIE —Early, li'ac rose, extra large and very popular. A grand flower.	2.00
NEPTUNE —Furplish rose with white strip.	.50
OCTAVIE DEMAY —Large, productive, pale pink, extra fine.	1.00
RENIE HORTENSE —Desirable pink, crimson splashed.	.75
RICHARDSON'S GRANDIFLORA —Immense light pink, late, a strong and vigorous grower.	1.00
SARAH BERNHARDT —Mauve rose, silver tipped, late, one of the new varieties.	3.50
SOLFATERE —A new desirable pink.	.50
THERESE —A large, soft pink, shading into lilac, strong grower, midseason, a wonderful variety.	8.00
TOURANGELLE —Large flesh pink, exquisite and charming beyond description	7.50
PEONY COLLECTION —Our selection, one red, one white and one pink.	1.10

DAHLIAS

One of the most satisfactory flowers we know. Blossoms in late summer and fall when other flowers are scarce. We propagate the best in the cactus, decorative and show varieties.

The Dahlia is very easy to grow. The roots we send out are divided and ready to plant. Place them about four inches deep in the ground. Cultivate to keep weeds down and the ground moist. When frost kills the tops, cut them off near the surface, dig the tubers and store them in a cool cellar, where frost will not reach them. Used extensively for bouquets and cut flower purposes. Good background flower. Note the very low prices.

Cactus Dahlias

FLORADORA—Profuse bloomer of beautiful---- wine crimson flowers, extra fine.

GEN BULLER—Rich, deep crimson, tipped with white. Very attractive.

HARBOR LIGHT—Vivid orange red.

J. H. JACKSON—One of the best of the dahlia family, dark red, nearly black.

PEARL DE LYON—Snow white, very fine.

KRIEMHILDA—A fine shade of pink with a white center.

Price for Above Varieties 15c each; two for 25c.

Decorative Dahlias

CATHERINE DEUER—An extra large flower. Color, glowing shade of red. Extra fine. Each 20c

MRS. CHAS. TURNER—Clear canary yellow, very large and attractive. Extra, each ----- 20c

OBAN—Mauve, large and very free flowering. Each ----- 20c

SOUV. DE GUSTAV DOUZON—Very large, beautiful orange scarlet. Profuse bloomer. Each ----- 20c

ROSE PINK CENTURY—The largest of the single flowered. Deep pink, on long stems. Each ----- 15c

Above varieties 15c each, two for 25c.

DAHLIA COLLECTION—12 mixed Dahlias \$1.00

GLADIOLI

There is no flower we grow from a bulb that gives the genuine satisfaction as Gladioli. Easy to raise and blossoms at a time when flowers are scarce. Extra fine for vase bouquets. Plant 4 inches deep. Must be dug up and stored during winter and planted after May 15th. Our bulbs are extra fine.

AMERICA—The standard popular pink. Flowers large and fine for cut flowers.

BLUE HYBRIDS—Very best of the blue shades, dainty and popular.

MEADOWDALE—Fine white with blotched throat, very attractive. Good grower.

MRS. FRANCIS KING—The standard red. Strong grower. Extra fine and attractive.

NIAGARA—A delightful cream shade blending to a canary yellow; throat splashed with light carmine.

PANAMA—The new pink that has created such a sensation on account of its large waxlike flowers of glowing silvery rose.

HALLEY—A most attractive early blooming sort with large well opened flowers, of deep salmon pink, tall graceful spike.

Price for Gladioli—Each 8c; Per 10, 60c.

Mixed Gladioli per 10, 50c.

"I wish to thank you for the care you took to send me the four nice apple trees. They also had plenty of nice roots on them."

"Thank you for the very prompt service on the shrubbery. It was received in good condition and is growing very satisfactory."

LANDSCAPING

We do not claim to be artists, but do know something about practical planting and what we recommend we believe will grow. We cannot make elaborate drawings but can give you some rough sketches which will help you.

We are always pleased to do this without any charge. The only thing we ask is to write us before shipping season starts as we can give it a little better attention.

This picture gives some idea how to make a planting attractive. Large trees in the rear and side with shrubbery and flowers around the foundation.

TERMS

Cash in advance. Personal checks accepted. All orders f. o. b. Ipswich, S. D. We ship most nursery and small seed orders by express. Bulk seeds generally are cheaper sent by freight. Garden and flower seeds and 1 lb. seed lots are sent postage paid by mail.

When orders are requested to be shipped by parcel post, please send the necessary postage or we will send parcel post collect. We can send orders weighing up to 70 pounds in the first, second and third class zones and up to 50 pounds outside of the third zone. On account of nursery wrappings being so heavy it is hard to estimate the postage. Also if you live on a prepaid station where there is no agent, include the transportation charges. If you ever receive anything from us in bad order, have it marked "bad order" on the freight or express slip as adjustment can be made much easier.

Unless instructed to the contrary on nursery orders, we will substitute other sizes or as good varieties, if we are sold out on any items.

We give personal attention to all orders and are very careful to label all stock true to name. In case any error occurs on our part, we are willing to replace the variety free, but if replacement is not made we shall not be liable for more than the purchase price.

The prices quoted on seeds are subject to market changes and as it is customary and according to the usages of the seed business, we give no warranty, express or implied, as to the description, quality or productiveness. If the purchaser does not accept the goods on these terms, they must be returned at once and the money paid will be refunded. All seeds are sold bags weighed in.

Our nursery adjoins the city of Ipswich on the east (Home of the Yellowstone Trail) and visitors are always welcome.

Warehouse and office on the C. M. & St. P. Ry. Come and see us when in the neighborhood of Ipswich.

SAL-VET

Without exception this is one of the very best mineral conditioners and tonics made. Nothing will equal it for getting rid of worms. Good for all kinds of stock but something absolutely necessary to feed hogs to destroy worms and keep them in the pink of condition so they will not become susceptible to cholera and swine plague. A healthy hog is like a healthy person and rarely is affected by contagious disease. Nothing any more reliable.

Price, 15 lb. package \$1.50.

40 lb. package \$3.25

50 lb. pail \$4.00.

100 lb. keg \$6.75.

200 lb. keg \$12.00.

Sal-Vet Poultry Tonic excellent to tone up the chickens and make them lay. Price 25c per package.

Prices Quoted Subject to Market Change

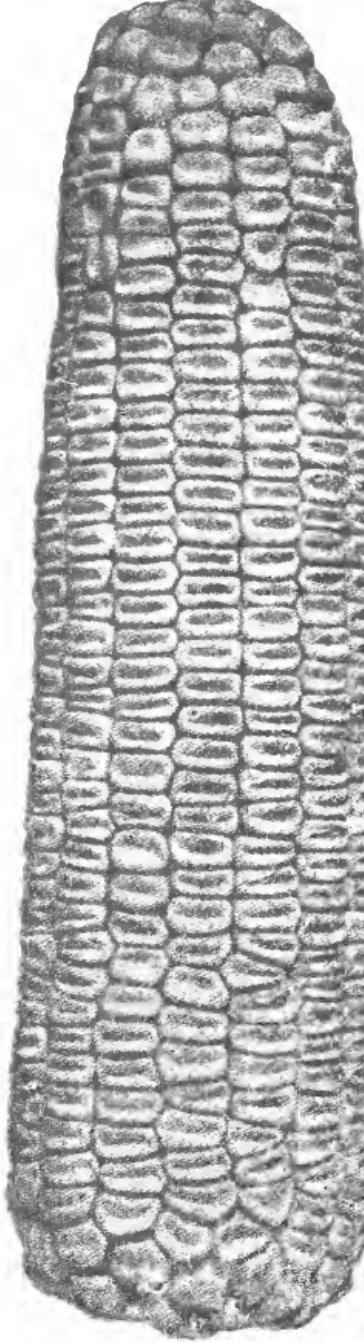

It pays big dividends to inoculate Alfalfa, Clover and Soy Bean seeds with Nitragin. This insures a much better growth (as the nitrogen from the air feeds the plants as well as the soil does).

Price for $\frac{1}{2}$ bu. size can 60c prepaid; 1 bu. size can \$1.00 prepaid; 5 bu. size can \$4.75 prepaid.

Look Out for 1924 and Old Crib Corn!

Don't buy unless a guaranteed test is made in the spring. A few missing hills every row is expensive seed. Good, dry, virile seed is the cheapest to buy. If our seed corn does not test satisfactory, send it back and your money will be returned and freight or express refunded.

We know you will keep it.

DAVIS PERFECT

Vegetable and Flower Seeds

We have added Vegetable and Flower Seeds of the better varieties and have absolutely fresh seed.

JOHN BAER

To introduce them we will give \$1.25 worth of Vegetable or Flower seeds for every dollars worth purchased.
